## CLASSIC<sub>9</sub>

Meet the new CLASSIC 9 collection. Translucent shades with holographic glitter will decorate any manicure.

Gentle and neutral gel varnishes look even more feminine, combined with an unobtrusive shine.

The shades of the "9" collection are suitable not only for special and festive manicures, but will also complement any image. Such colors adorn both short and long nails. Gel varnishes of medium consistency and viscosity, do not flow, are well self-leveled. They are perfectly combined with each other.
